

RTE ACT 2009

Right To Education

<https://mhrd.gov.in/rte>

The Constitution (Eighty-sixth Amendment) Act, 2002 inserted Article 21-A in the Constitution of India to provide free and compulsory education of all children in the age group of six to fourteen years as a Fundamental Right in such a manner as the State may, by law, determine. The Right of Children to Free and Compulsory Education (RTE) Act, 2009, which represents the consequential legislation envisaged under Article 21-A, means that every child has a right to full time elementary education of satisfactory and equitable quality in a formal school which satisfies certain essential norms and standards.

Article 21-A and the RTE Act came into effect on 1 April 2010. The title of the RTE Act incorporates the words 'free and compulsory'. 'Free education' means that no child, other than a child who has been admitted by his or her parents to a school which is not supported by the appropriate Government, shall be liable to pay any kind of fee or charges or expenses which may prevent him or her from pursuing and completing elementary education. 'Compulsory education' casts an obligation on the appropriate Government and local authorities to provide and ensure admission, attendance and completion of elementary education by all children in the 6-14 age group. With this, India has moved forward to a rights based framework that casts a legal obligation on the Central and State Governments to implement this fundamental child right as enshrined in the Article 21A of the Constitution, in accordance with the provisions of the RTE Act.

The RTE Act provides for the:

- Right of children to free and compulsory education till completion of elementary education in a neighbourhood school.
- It clarifies that 'compulsory education' means obligation of the appropriate government to provide free elementary education and ensure compulsory admission, attendance and completion of elementary education to every child in the six to fourteen age group. 'Free'

means that no child shall be liable to pay any kind of fee or charges or expenses which may prevent him or her from pursuing and completing elementary education.

- It makes provisions for a non-admitted child to be admitted to an age appropriate class.
- It specifies the duties and responsibilities of appropriate Governments, local authority and parents in providing free and compulsory education, and sharing of financial and other responsibilities between the Central and State Governments.
- It lays down the norms and standards relating inter alia to Pupil Teacher Ratios (PTRs), buildings and infrastructure, school-working days, teacher-working hours.
- It provides for rational deployment of teachers by ensuring that the specified pupil teacher ratio is maintained for each school, rather than just as an average for the State or District or Block, thus ensuring that there is no urban-rural imbalance in teacher postings. It also provides for prohibition of deployment of teachers for non-educational work, other than decennial census, elections to local authority, state legislatures and parliament, and disaster relief.
- It provides for appointment of appropriately trained teachers, i.e. teachers with the requisite entry and academic qualifications.
- It prohibits (a) physical punishment and mental harassment; (b) screening procedures for admission of children; (c) capitation fee; (d) private tuition by teachers and (e) running of schools without recognition,
- It provides for development of curriculum in consonance with the values enshrined in the Constitution, and which would ensure the all-round development of the child, building on the child's knowledge, potentiality and talent and making the child free of fear, trauma and anxiety through a system of child friendly and child centred learning.

ABOUT

<http://righttoeducation.in/know-your-rte/about>

The Right of Children to Free and Compulsory Education Act or Right to Education Act (RTE), is an Act of the Parliament of India enacted on 4 August 2009, which describes the modalities of the importance of free and compulsory education for children between 6 and 14 in India under Article 21a of the Indian Constitution. India became one of 135 countries to make education a fundamental right of every child when the Act came into force on 1 April 2010.

The Act makes education a fundamental right of every child between the ages of 6 and 14 and specifies minimum norms in elementary schools. It requires all private schools to reserve 25% of seats to children (to be reimbursed by the state as part of the public-private partnership plan). Kids are admitted in to private schools based on economic status or caste based reservations. It also prohibits all unrecognised schools from practice, and makes provisions for no donation or capitation fees and no interview of the child or parent for admission. The Act also provides that no child shall be held back, expelled, or required to pass a board examination until the completion of elementary education. There is also a provision for special training of school drop-outs to bring them up to par with students of the same age.

The RTE Act requires surveys that will monitor all neighbourhoods, identify children requiring education, and set up facilities for providing it. The World Bank education specialist for India, Sam Carlson, has observed: "The RTE Act is the first legislation in the world that puts the responsibility of ensuring enrolment, attendance and completion on the Government. It is the parents' responsibility to send the children to schools in the US and other countries."

The Right to Education of persons with disabilities until 18 years of age is laid down under a separate legislation - the Persons with Disabilities Act. A number of other provisions regarding improvement of school infrastructure, teacher-student ratio and faculty are made in the Act.

Education in the Indian constitution is a concurrent issue and both centre and states can legislate on the issue. The Act lays down specific responsibilities for the centre, state and local bodies for its implementation. The states have been clamouring that they lack financial capacity to deliver education of appropriate standard in all the schools needed for universal education. Thus it was clear that the central government (which collects most of the revenue) will be required to subsidise the states.

A committee set up to study the funds requirement and funding initially estimated that INR 1710 billion or 1.71 trillion (US\$38.2 billion) across five years was required to implement the Act, and in April 2010 the central government agreed to sharing the funding for implementing the law in the ratio of 65 to 35 between the centre and the states, and a ratio of 90 to 10 for the north-eastern states. However, in mid 2010, this figure was upgraded to INR 2310 billion, and the center agreed to raise its share to 68%. There is some confusion on this, with other media reports stating that the centre's share of the implementation expenses would now be 70%. At that rate, most states may not need to increase their education budgets substantially.

A critical development in 2011 has been the decision taken in principle to extend the right to education till Class X (age 16) and into the preschool age range. The CABE committee is in the process of looking into the implications of making these changes.

The Ministry of HRD set up a high-level, 14-member National Advisory Council (NAC) for implementation of the Act. The members included Kiran Karnik, former president of NASSCOM; Krishna Kumar, former director of the NCERT; Mrinal Miri, former vice-chancellor of North-East Hill University; Yogendra Yadav – social scientist. India

Sajit Krishnan Kutty, Secretary of The Educators Assisting Children's Hopes (TEACH) India; Annie Namala, an activist and head of Centre for Social Equity and Inclusion; and Aboobacker Ahmad, vice-president of Muslim Education Society, Kerala.

A report on the status of implementation of the Act was released by the Ministry of Human Resource Development on the one year anniversary of the Act. The report admits that 8.1 million children in the age group six-14 remain out of school and there's a shortage of 508,000 teachers country-wide. A shadow report by the RTE Forum representing the leading education networks in the country, however, challenging the findings pointing out that several key legal commitments are falling behind the schedule. The Supreme Court of India has also intervened to demand implementation of the Act in the Northeast. It has also provided the legal basis for ensuring pay parity between teachers in government and government aided schools. Haryana Government has assigned the duties and responsibilities to Block Elementary Education Officers–cum–Block Resource Coordinators (BEEOs-cum-BRCs) for effective implementation and continuous monitoring of implementation of Right to Education Act in the State.

It has been pointed out that the RTE act is not new. Universal adult franchise in the act was opposed since most of the population was illiterate. Article 45 in the Constitution of India was set up as an act: The State shall endeavour to provide, within a period of ten years from

the commencement of this Constitution, for free and compulsory education for all children until they complete the age of fourteen years.

As that deadline was about to be passed many decades ago, the education minister at the time, MC Chagla, memorably said: "Our Constitution fathers did not intend that we just set up hovels, put students there, give untrained teachers, give them bad textbooks, no playgrounds, and say, we have complied with Article 45 and primary education is expanding... They meant that real education should be given to our children between the ages of 6 and 14" - (MC Chagla, 1964).

In the 1990s, the World Bank funded a number of measures to set up schools within easy reach of rural communities. This effort was consolidated in the Sarva Shiksha Abhiyan model in the 1990s. RTE takes the process further, and makes the enrolment of children in schools a state prerogative.
